

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D1

BASE AND THRESHOLD
1:5 · TYPICAL — applies where the condition occurs

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D4

WINDOW CILL
1:5 · TYPICAL — applies where the condition occurs

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D2

WINDOW HEAD
1:5 · TYPICAL — applies where the condition occurs

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D5

PARAPET
1:5 · TYPICAL — applies where the condition occurs

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D3

WINDOW JAMB
1:5 · TYPICAL — applies where the condition occurs

Context ≥ 100 mm beyond the junction, one datum, every layer annotated by reference, and the five continuity lines — water, air, vapour, thermal, fire — each resolved or explicitly terminated with a reference to where it continues.

D6

ROOF EDGE
1:5 · TYPICAL — applies where the condition occurs

KEY PLAN

SCOPE OF THIS SHEET

Typical envelope junctions.
Assembly build-ups on A6.010.

READ WITH

A6.010 wall types
A4.001 elevations
Specification

REFERENCED FROM

A3.100 · A3.102 · A3.104
A4.001 · A4.010

LEGEND

Continuity lines are annotated,
not distinguished by weight.

STANDARD NOTES

See A0.010.
